

KN Finished Vehicle Logistics

Giving your cars wings

Elegance, performance and power: From classic models through to electric cars, your vehicles deserve the best handling and control during shipment. At Kuehne+Nagel, we'll put wings on your cars to deliver them wherever they need to be.

Our certified automotive experts are passionate about delivering a first class service. Your vehicles are safe during their entire journey, from factory to showroom floor. You can rely on proactive intervention during any unforeseen circumstances.

Do your vehicles have special handling requirements?

We treat your vehicles as if they were our own.
From white glove handling to confidentiality and safety requests – your vehicles are in the best hands.

Every solution is unique

In collaboration with you, we design the ideal logistics solution to meet your individual requirements.

- Standard operating procedures ensure high quality vehicle transport
- Guaranteed capacity through fixed space allotments with our preferred carriers
- Full visibility and control of your shipments, transport documents and reports via myKN – your one stop online solution
- Customs services enable quick and compliant clearances
- Stay flexible by using any mode of transport, including rail to and from China

Choose the service level that matches your needs

Your vehicles require more than a one-size-fits-all approach, so we have created a variety of customisable service levels to cater to your individual requirements.

Core elements of all our service levels

- Specialised training for all automotive staff
- Global door-to-door visibility with myKN
- Automobile-specific standard operating procedures
- Kuehne+Nagel's working instructions
- 24/7/365 support
- Global infrastructure, regional competence managers
- Carrier assessment

You can count on a seamless service, from door to door.
Your goal is our goal – to make your customers happy.
